I'm a keen and Passionate Freelance Photographer based in Adelaide, South Australia. Let me "make your Day" - I am sensitive and reassuring to the people and moment, so as to give everyone a positive and enjoyable experience. I try hard to get, and want, the Best possible quality photo of that moment. It is my aim to capture those special moments and memories, so you can reflect on them for many years to come.

I have been taking and processing Digital Still Photos for over 12 Years and I am confident I can provide you with all your Still Photography needs. Post production of all my RAW images are done in Lightroom and Photoshop and I work hard to give each image that extra "punch".
